REASONS FOR ALLOWANCE

The Amendment filed August 23, 2007 has overcome the rejection set forth in the Office action sent July 6, 2007.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not anticipate or make obvious an apparatus and system for processing a multiplayer game configured to user biometric input comprising at least one game platform; at least one biometric signal input to receive variable biometric information separate from a bios input or bios signal; and an event generation engine transmitting to one or more users a requested change in the variable biometric information and using changes in the variable biometric information from said at least one biometric signal input separate from the bios input or bios signal to generate the event sequence (as per claims 20, 34, and 43).

Claims 20-37, 39, 40, and 43-47, therefore, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
